### CHINESE IMMIGRATION.

DENNIS KEARNEY SPEAKS SUPPORT-ING THE CUMMINGS BILL.

His Plea in Behalf of the Children of San Francisco-Mr. Hitt, of Illinois, Some-Reservation Bill-Washington.

WASHINGTON, Feb. 3.-Dennis Kearney, of San Francisco, talked to the house com-

Chinese immigration. He decided that there would be nothing for the 73,-000 children in the San Francisco schools to do if

something was not

DENNIS KEARNEY. done to stop the inflow of Chinese, as no white person will learn a trade followed by a Chinaman. Mr. Kearney displayed a map of Chinatown, in the heart of San Francisco, and pictured the manner in which the inhabitants of that quarter burrowed into the ground, existed in filth and spread disease, degredation and squalor, driving out all decent white people.

Ha said that in nine blocks in Chinatown there were sixty-seven houses of prostitution, 150 gambling deus and opium resorts inumerable. During his argument Mr. Kearney became very earnest in his denunciations of the Chinese and almost violent against those who opposed absolute prohibition of immigration, and Mr. Hitt, of Illinois, a member of the committee, put a number of questions which tended to irritate the speaker to an almost uncontrolable degree.

Mr. Hitt does not believe in extreme legislation on the subject of immigration, and hence opened the flood-gates of wrath upon the port of Mr. Kearney, who declared that he would go into the district of the Illinois member in the approaching campaign and make Mr. Hitt's constituents pelt their representative in congress with dead cats, snakes and baked snails, which the Californian declared Mr. Hitt would have his constituents feed upon. Mr. Kearney will ask for a hearing before the senate committee on foreign relations on the same subject.

The Sioux Reservation Bill.

Washington, Feb. .—Ex-Delegate Frank Pettigrew, of Sioux Falls, Dak., who has been in the city some time, looking after the bills opening to settlement the Sloux Indian reservation, and dividing Dakota Territory on an east and west line, admitting the" southern half to statehood, under the name of South Dakota, and making a territory of the northern half to be known as Dakota, said to a United Press reporter to-day, that so far as the Sioux reservation bill was concerned the outlook could not be more hopeful for speedy action.

The senate committee on Indian affairs has had the bill ready for reporting unanimously for nearly a month. The hill which has been acted upon by this committee provides for the opening of the reservation to settlement, but requires a ratification of the treaty by three-fourths of the Indians on the reservation. The house committee on Indian affairs will report the bill unanimously

and favorably to-morrow. The hill to be reported by this committee is identical to the one of the senate, with the exception that it opens the reservation to settlement absolutely without any negotia-tion with the Indians. Mr. Pettigrew thinks the house bill will be acted upon within two or three weeks, and that it will be substituted by the senate. He has very little hope of the statehood bill receiving consideration in the house at any time, but believes that if it could be brought fairly before the house it

would receive a majority support. Revising the Ruies.

WASHINGTON, Feb. 3.-The civil service commissioners have now before them the fifth revision of the rules. They are making the revision with great care, so that no corrections will be necessary after their work receives the approval of the president. Five times have they thought their work done, bnt after an examination of the proof sheets received from the public printer on each of the five occasions, it was found that there was room for further revision. As Commissioner Edgerton expresses it, the commission is now listening to the fifth ringing of the first bell. The commissioners hope that it will not be necessary to run off many more proofs, and that they can have the re vised rules ready for the consideration of the president within a few weeks.

The Stupendous Piece of Engineering Completed and Formally Opened.

SAN FRANCISCO, Feb. 8.-The great Merced irrigation canai was formally opened yesterday in the presence of Governor Watterman and many distinguished guests. The oration was delivered by the Hon. J. W. Breckenridge. The ceremonies took place what Irritates the Californian - Sioux five and a half miles from the city of Merced where the floodgate was opened and the valley for a mile square converted into a sheet of water named Lake Yosemite. The canal was begun five years ago by Charles Crocker mittee on foreign of railroad fame and C. H. Huffman, a affairs an hour this wealthy wheat grower, and their sons. It morning in support sost \$1,500,000. It is twenty-seven miles of the Cummings, long, one hundred feet wide at the top, sevbill prohibiting enty at the bottom and ten feet deep. It will irrigate 300,000 acres of the most fertile land in California. It receives an inexhaustible supply of water from the Merced river flowing through the Yosemite valiey, which is supplied by the eternal snows of the

At a point two miles below the falls, at Merced, an immense dam raises the stream ten feet above its normal level. The great engineering features of the work are two tunnels, one 4,400 feet loug, driven through the hill of solid rock, no supports being necessary, the other 3,000 feet long, faced with the timbers. The dam across the small valley near Merced, constructed to form a reservoir, is 4,000 feet long, 275 feet wide and fifty-four high. The level of the reservoir is ninety feet above the city of Merced. Water will be conveyed there in large pipes. It is believed the fall will be sufficient to run by water power the mills and other manufacturing enterprises. Colonies will be settled along the line of the canal, which is by all odds the most important enterprise of a similar character ever carried to a successful termination in the state, if not in the United States.

Ohio Legislature.

COLUMBUS, O., Feb. 3.—Yesterday the following bills were passed in the senate: Requiring banks and other institutions to keep a record of unknown depositors: giving mayors and justices of the peace jurisdiction in food adulterations, Resolutions adouted: Relative to the control of funds for the agricultural experiment station; to a:certain the practibility of a ship canal.

To-day the judiciary committee reported a substitute for Beatty's local option bill, which differs from it in two important particulars. It provides that one-fourth the voters of a township, exclusive of those residing in municipalities, may petition the township trustees for a local option special election. Beatty's bill does not require special elections nor does it give voters of townships residing outside of municipal corporations the right to vote on local option outside the corporation limits. The substitute was made the special order for next Thursday.

Yesterday the house bills were passed fixing the salary of the director of the agricultural experiment station; requiring clerks of courts to make prompt returns of certificates of election; amending the act relative to cases before justices; making appropriations for support of the commou schools. A bill was introduced requiring penitentiary made goods to be branded.

To-day there was lots of fun in the house the bill to kill gre ground hog day and Dr. Holcomb, the author of the bill, made a funny speech, and was interrupted by mischievous members with impertinent questions. The house was in an uproar for half an hour.

More temperance petitions were thrown into the senate with the usual endorsement perverting them in the interest of Barnes & Company; also a protest against any effort to prevent the passage of the Barrett teniperance educational bill by any of book, job or intlination.

The bill creating a solicitor to the board of education, passed the senate.

The Cause of the St. Louis Ice Gorge. Sr. Louis, Feb. 8.—The Republicau, in a series of interviews with captains of the Missouri Pacific ferryboats, charges these men with deliberately forming the ice gorge, which threatened \$1,000,000 worth of proparty, and destroyed from \$60,000 to \$100,000 worth. Capt. Seflar, of the Missouri, is reported as saying that he and Capt. Seelers, of the Pacific, laid broadside with their boats in the narrow channel, thus stopping the fine ice. As it was a cold night the fine ice soon froze solid and the chanuel was closed. Other river men verify Seelers' statements, and while it is admitted that the river was deliberately gorged, they say it was simply for self-protection.

No Free Trade in Theirs. BALTIMORE, Md., Feb. 4 .- The Manufacturers' Record for this week will publish a special issue devoted to the cotton manufacturing interests of the south, having compiled its information through direct correspoudence with every cotton mill in that section. The number of cotton mills south of the Ohio river, and including Maryland and Virginia, in 1880 was 179, with 713,989 spindles and 15,223 iooms. On the 1st of January, 1888, in the same territory, there were 204 mills, with 1,485,145 spindles and 34,006 iooms. These figures show an increase of over 100 per cent.

CINCINNATI SHOEMAKERS.

A LOCKOUT DECLARED WHICH WILL EFFECT 6,000 MEN.

The Strikers and Those Locked Out Hold a Meeting-The Increase in the Ranks of the Knights-Five Hundred Lumbermen Discharged-Reading Troubles.

CINCINNATI, Feb. 3.-The Shoe Manufacturers' association, embracing the following firms have declared a lockout: Stribley & Company, Krippendorf, Dittman & Company, W. I. Thom & Company, George Hocker & Company, Maloney Brothers, Cosgrove Shoe Manufacturing company, Stranger & Boyd, Buesching & Brother, Hart, Mead & Company and Alter Touvard & Company.

Said William Cosgrove, of the Cosgrove Shoe Manufacturing company, to a reporter: "This will throw out of work about 3,000 shoemakers and fully as many more employes who are indirectly identified with the trade."

The trouble originated in Blacker, Gerstle & Company's factory. Last Saturday several girls had their salaries docked for sums claimed to have been overpaid for work, Including the careless marking of piece work last November.

The girls who had been docked quit work Saturday evening, but a bevy of new-comers appeared Monday morning to fill the

A committee of three girls and as many lasters at once called ou Mr. Blacker, and threatened a general strike should the new girls be put to work. A meeting was called at noon, and an hour later the whole shop, numbering between 450 and 500, went out. This, the mnuufacturers claim, was in direct violation of an agreement between them and the executive board of District Assembly No. 48, Knights of Labor, which provided that no strike or lockont should occur during the pending of any question, and that there should be no meeting of knights during working hours.

The manufacturers called on the executive committee, Knights of Labor, Monday even-ing to have the agreement enforced. The board took the motion under consideration, but, failing to give a satisfactory answer by Tuesday evening, the manufacturers held a meeting Wednesday noon and declared a general lockout. The striking and locked out shoeworkers held a meeting at Workmen's hall at 10 a. m. to discuss the situation.

There was an attendance of over one thousand. The executive committee of one member from each shoeworkers' assembly held a secret conference and resoived to resist the lockout. They claim the Manufacturers' association violated their agreement first by refusing to receive a committee after working hours, and that the employes were in the right and violated no agreement in striking after that. The trouble seems to be that the manfacturers attempted to ignore the Knights of Labor, and treat individually with their employes.

District Master Workman Cavanaugh At the various shops this morning there was be their presidential candidate. iittle going on, and the indications are that

the lockout will be long and stubborn. At 11:30 the executive committee, after being out one hour, returned to the general meeting. A call to order was followed by the election of Michael Donelan, president, and James Stevenson, secretary. The meeting was very enthusiastic. The principal discussion was on a proposed new set of rules which would end the lockout and obviate trouble in the future.

Locomotive Engineers.

PHILADEPHHIA, Feb. 3.—A most important session of delegates of the Brotherhood of Locomotive Engineers was begun in Room 42, of the guard house yesterday. The delegates represented all the lodges on the line of the Pennsylvania railway, east of Pittsburg and number between twenty and thirty. There was delegates present from Pittsburg, Allegheny, Altoona, Harrisburg, Columbia, Jersey City, Trenton, Baltimore, Camden, N. Wilmington, Del., and other points.

The object of the convention, it was learned, was to consider a bill of grievances which the engineers desired to lay before the Pennsyivnnia officials. There are several things to be considered, which, it is nuderstood, involve an advance of about 10 per cent, on the wages paid at present. The demand is in accord, as nearly as possible, with that already formulated by the members of the brotherhood on the Pennsylvania lines west of Pittsburg.

The demand, it is stated, has already been forwarded to the Pennsylvania officials in this city, and a copy is now in the hands of Chief Arthur, of the brotherhood. A delegate sald last night:

"Within the dext few days a committee will go to the Pennsylvania office on Fourth street with a demand. What it will be I cannot say."

After the Reading People.

HARRISBURG, Da., Feb. 3.—Argument will be heard before the attorney general here to-day upon the application of, the special committee of the Knights of Labor for the issuance of a writ of quo warranto against the Philadelphia & Reading railroad for a forfeiture of its charter.

The application is an outgrowth of the present strike, and is based upon the allegation that the corporation has forfeited its charter by violating the state constitution by engaging in the business of mining coal. The committee has made affidavit that they have positive knowledge that the Reading railroad and the Reading Coal and Iron company are one and the same, and that the debts of the one are paid by the other.

Corporations and Syndicates Must Go. PHILADELPHIA, Feb. 3.—The official utterance of the order of Knights of Labor upon the coudition of the Reading strike will be published in the coming issue of the Journal of United Labor, saying:

"It is a hard battle and the victory may be long in the future, but the country is awakening to the danger that threatens the liberties of the people. Corporations and syudicates are doomed. It is but a question of time, and that not very far off. This strife is opening the way for the government control of the railroads. Right will triumph in the end. It is through turmoil, strife and suffering that great principles are established."

A Ten l'er Cent. Reduction.

JOHNSTON, Pa., Feb. 3.—The 10 per cent. reduction in wages at the Cambria iron works has gone into effect, being accepted in all departments except the wire mill. These men are still considering the proposed reduction, but no trouble is anticipated by the company. Over ten thousand employes are affected by the reduction.

Knights Increasing in Numbers. PHILADELPHIA, Feb. 8.—The general executive board of the Knights of Labor have made their reports for the January term relative to the membership of the various assemblies throughout the country. It is said that when the footings are made up the order will show an increase of over fifty thousand members. In this state the report states that the increase has been more noticeable. In New York, Massachusetts and New Jersey the decrease has been marked, but the report says it is less than was anticipated. In the western and southern states the Knights of Labor have grown rapidly.

Five Hundred Men Discharged.

CHEYBOGAN, Mich., Feb. 8.—Five hundred men are said to have been discharged from the several ceder camps near the Schneaux, this side of Prentiss bay, and the camps have closed up because it was unprofitable on aocount of the deep snow to keep them running. Supplies are insufficient in the immediate vicinity to provide for them long, and the towns will have to provide for them if they fail to procure work or they must

NEW YORK, Feb 3.—Neai Dow says, in an interview in the World this morning: "Mr. Blaine is personally a temperance man and prohibitionist. I voted for him in 1884, thinking if he were elected the Republican party would recover the confidence and respect of the country. I shall not vote for him in the coming election. It is no longer a question of caudidates, for the reason that prohibition can not win in the life time of the Republican party." Public Sentiment Saved Her.

ATLANTA, Ga., Feb. 3.—Governor Gordon to-day commuted the sentence of Eliza Randall, who was to have hanged in Ciay county on Fridny, to imprisonment for life. Eliza Randall murdered her father, killing him with an ax. All the details of the crime were of the bioodiest description, and not one word of extenuation was urged in her behalf. Public seutiment against the infliction of capital puishment is what saved her from the gallows.

A Curious Petition.

St. JOSEPH, Mo., Feb. 3.—The women living in the southeastern part of the city are circulating a petition to have Hoeneck and Ruilling, the wife murderers lynched. Mr. Augustine, the man in whose house Hoeneck committed the murder, says the women have grown weary of the delay and are trying to work up a feeling among the sterner sex that will induce them to take the law into their own hands. The Tally-Sheeters.

COLUMBUS, O., Feb. 3.—In the tallysheet case the day was largely consumed by the struggle of Counsel Converse to prove that witness Joyce had taken part in a conspiracy to prosecute and persecute Montgomery. After much sparring Joyce answered the question as to whether he had not given money to the citizens' committee to prosecute the cases in the affirmative, he had contributed \$700 in the interest of public order, but did so before any indictments were found by the grand jury. He denied any bad feeling on his part toward Mr. Montgomery. Charles Galloway and Arthur Ellis, election cierks, identified the tallysheets and pointed out the additions thereto.

Killed By a Street Car.

CINCINNATI, Feb. 3.—Charlie Hiltenberger, a twelve-year-old boy, was rnn over by a street car at Everett and Baymiller streets at 11:30 a. m. and instantly killed. The lad was stealing a ride on a delivery wagon on Everett street, and as the wagon crossed Baymilier he dropped off and fell in front of car No. 7, of the Green line. Before the driver could check his team the front wheel passed overithe little fellow's head, completely crushing it. Life was extinct when he was picked

This school is taught Rev. T.T. Dobyns. and this is his second term at this place. He uses written work in many of his classes, and gives special attention to the development of character. Here we need greatest stress in speaking of school work. The teacher should keep in mind that his work is the formation of character-the development of a well rounded manhood and womanhood in his pupils. This is infinitely more important than mere knowledge. Mr. Dobyns' classes did very well indeed in their work while I was present in the school. There is, nnquestionably, increased interest and progress in this district.

The Suddenly Rich.

I wonder what people do with "windfalls." They are always happening. In a single newspaper of this week's date there are recorded no less than three of them. A workman suddenly becomes possessed of £100,000, a private soldier of £40,000, a pamper in a workhouse of several thousand pounds. How the question, 'What shall I do with it?" must press upon their attention. My own impression is, that in cases where the very poor people become suddenly very rich, they do not experience so much difficulty in spending their moncy as persons of moderate means who have become millionalres; because it is generally spent for They are instantly translated to another sphere, and fall into the hands of more or less interested advisers.-James

The unfinished business was attended to, "further time" being the usual disposition of the various items on the list. Frankfort, after spending a few days in Bid weather had prevented the several committees from attending to much of the business. '

The coffee-house license of Joseph A. Curley, of East Maysville. Diener was transfered to Martin Guilfoylo. T. A. Keith & Co. wero granted privilege of erecting coal scales on west side

of Sutton street, between Second and Third streets. Coffee-house license was granted John Kuble & Co., doing business at No. 3

Market street. Permission was granted to lay crossing on Second street from George T. Wood's grocery to Fretlerick's shop, Fifth ward.

Mr. Stockton introduced and had read an ordinance to provent "cows, calves, horses, mares, colts, mules, sheep or goats" from rnnning at large on the streets. The rules were suspended and the ordinance passed. The penalty for a violation of the ordinance is \$10.

Mr. J. C. Owens addressed the Council and said he was willing to give the city five feet of ground, the full length of his lot on West Second street-276 feet-for a pavement. This was on condition that the city put down the said pavement. The matter was referred to the Committee on Internal Improvement to investigate and report as to cost.

The petitition of Mr. J. C. Owens to erect an office on his lot on West Second street was granted conditionally, on complying with the law.

Complaint was made by Mr. Wood against the Maysville Water Company as to the supply of water and the pressure from the reservoir, and the matter was referred to the Committee on Internal Improvement for investigation and settlement. A gauge is to be erected at the Mayor's office so that the pressnre may be known at all times.

On motion Messrs Thomas Wood, W. H. Cox, W. H. Wadsworth, Jr., A. M. J. Cochran, Dr. John Phister and Mayor Pearce were appointed a committee to revise and amend the city charter and report their action to Council.

Mesers. P. G. Triplett, Thomas M. Wood and W. H. Cox were appointed a Board of Equalization by the Chair.

An allowance of \$5 was granted a Mr. Anderson to pay his passage to Cleveland, Ohio.

Mr. Wadsworth called attention to a defect in the ordinance as to revoking the license of saloon-keepers for selling liqnor to minors and offered an amendment to remedy the same. Read and continued till next, meeting.

Mr. Wadsworth also called attention to some unjust provisions of the law as to granting coffee-house licenses. Owners of property on a square had no right to protest against the granting of license unless they were also the occupants of the property. He thought the law ought to be amended so that the owners of a majority of the front feet on a square could prevent the granting of license for a coffee-house on that square. Some discussion followed, after which Mr. Wood offered an amendment to the ordinance which was read and went over till noxt meeting. The amendment gives the owners as well as occuparts the right to sign for or against such licenses.

Mr. Rudy, Chairman of the Alms Committee, was ordered to spend two days-Wednesdays and Saturdays-in each week for noxt two months at Mayor's office. All applications for alms are to be thoroughoughy investigated before

The matter of erecting a gas lamp on Third street west of Commerce, on Grant east of Limestone, and three lamps on the Iron viaduct between Market and Limestone was referred to the Committee on Gas with power to act.

They Will Further Madden Enemies of

Tyranny and Increase the Number of Moderates-The Pope Advises the Irish to Make Peace With England-Foreign. LONDON, Feh. 3. -- The new anti-Socialist edicts to be published in Germany wiil have at least one effect, that of still further exasperating the pronounced enemies of tyranny and strengthening the growing number of moderates in the reichstag. The red spectre that enhances the chancellor's insomnia is not of a quality to be quelled by repressive statute, even if they are to be such as the Cologne Gazette indi-

That journal, in an article evidently inspired, says that neither fines or no terms of imprisonment seem to terrify the Socialists, deter them from preaching their doctrines, nor forbid their progress. A pitiless and indiscriminate exile should be tried. "Throw out of the country," it says, "all who sow the seed of these damnahie doctrines, all who are known to be Socialists, all who are suspected of being such."

The question may strain beyond tenuity the ties which hind together the countries composing the German empire. The police of Berlin and other cities of Prassia disperse vigorously all assemblages which seem even suspicious, but in the adjacent territories discussion is less restrained. Bavaria and Wurtumberg are outspoken in favor of free speech and against the scheme of banishment; in Saxony Herr Bebel and other influential statesmen have used language that must have made Bismarck's ear tingle and a popuhar deputy of Nuremberg in the course of his remarks proclaimed the truism that persons might be banished, but a cause that controls a million of votes cannot be exiled.

In Bavaria the constitution assures to all citizens the right to reside in the districts where they were born, and an amendment can only be effected by a two-thirds vote, which would be very difficult to obtain. Liberal leaders there have called attention besides, to the fact that the policy of repression has done nothing toward decreasing the number of Socialistic votes, but that on the contrary measures of reign have caused a prompt reaction.

If Bismarck succeeds in driving the Preichstag to obey his will he may postpone the evil day, but the Socialists have an ally in the crushing imports that grind down the German workman and peasant, who see the greater portion of the revenue of the country expending in maintaining a condition of things that is neither war nor peace.

In Berlin the Socialist vote, which was over fifty-six thousand in 1878, declined on account of the natural indignation aroused by the attempt of Nohlling against the life of the emperor, and the laws issued on account of the murderous attack to about thirty thousand in 1881. The ranks have since been filled up untll last year in the city the Socialist candidates received over ninetyfour thousand votes, and in the empire their supporters numbered nearly a million, having almost doubled since 1877.

The stagnation of trade in Berlin is exciting the most serious apprehension and the authorities might be glad to get rid of many phnoxicus and useless persons, hut surrounding counties will not welcome the refuse of the city by the Spree.

Sixty-three Round Fight.

LONDON, Feb. 3. - Monk, of Birmingham, and Donovan, of Bermondsey, fought last night at Newmarket, a sixty-three round prize fight, Marquis of Queensbury rules for the featherweight championship of England. Donovan was fourteen pounds heavier than Monk. The former obtained the lead at first and kept it. In the sixty-third round Monk was unable to face Dovovan owing to an injury be had received in the leg and the fight was ziven to Donovan. The time of the fight was three hours and twenty-five minutes

The l'ope Don't Favor Home Rule.

ROME, Feb. 3.—The pope received a party of Irish piigrims yesterday and advised the people of the Emeraid Isle to make peace with England. This intimation of the pope's attltude towards Homs Rule has excited great interest in Rome and will in Ireland when it becomes fully known. If the pope attempts to array the Irish clergy against the Home Rule agitation there will be vigorous resistance by priests and people.

Evicted Tenants to be Reinstated. DUBLIN, Feb. 3.—The tenantry on the Countess of Kingeton's estate at Mitchellstown, where numerous evictions took place last antumn, have announced their satisfaction regarding the recent reductions in rent granted them, and will accept the terms. They receive 20 per cent. reduction and the landlord pays the costs and the evicted tenants will be reinstated in their old holdings.

Austria After More Guns. VIENNA, Feb. 3. - Emperor Francis Joseph had a private confab with the Krupps, and it is supposed that the latter got some fat orders for artillery to mow down the Russians.
